## After much controversy, parking meters in the Beach and Main Street business districts made their exit Tuesday.

Last February a group of merchants in the area affected by the meters petitioned the city council for their removal, and the matter was taken under advisement.

A group again appeared before the Commission Council last Monday morning asking for their removal.

Mrs. Tudury, chairman of the Parks and Playground Commission, which receives the proceeds from the meters, spoke for their retention.

Commissioner Cyril Glover stated that during the first year of operation the meters had brought in approximately \$2,000 and, as they would have been paid for in the next two and a half years, the revenue then would be double that amount.

The Commission Council had contracted with Duncan Parking Meter Company to install the meters on a year's trial basis; the contract expired June 7.

Commissioner Glover said, "The meter were taken out and will remain out unless the public demands that they be put back."

## METHODISTS FAIL TO RATIFY AMENDMENT

JACKSON, Miss. — The Mississippi Methodist Conference by a vote of 319-14, Tuesday declined to ratify an amendment to the constitution of the Methodist Church to hold local conferences before the national conference.

The amendment was passed at the 1960 general (national) conference. It would move the jurisdictional (local) conferences to at least two months prior to the general conference.

Jurisdictional conferences now meet after the general conference.

Bishops are now elected and consecrated at the jurisdictional level.

Under the amendment, bishops would be elected by the local groups but consecrated at the general conference. The national group, according to the amendment, could also move a bishop from one jurisdiction to another.

Opponents said the amendment would destroy the jurisdictional system of the church and would give the southern jurisdiction much less power since the number of delegates would be reduced.

Proponents described the amendment as a compromise which would strengthen the unity of worldwide Methodism.

Whom God Hath Joined  
TOGETHER...

...let not man put asunder.

Before the Altar of Christ they took their vows.  
And now God has placed another hand in theirs; a  
small hand, needing tenderness and guiding love.

Before the Altar of Christ they come with their  
child, and according to the baptismal beliefs of their  
church dedicate his life to God.

Before the Altar of Christ they worship each Sun-  
day, and eagerly help their growing son to master  
the truths that will undergird his life.

Of course, there are times when the responsibil-  
ities of marriage and parenthood test their patience,  
and understanding, and courage to sacrifice.

But they have learned long since to conquer their  
selfishness and surrender their pride where they re-  
ceive forgiveness, strength and ever-deepening love  
—before the Altar of Christ.

Phillips, Mississippi's junior senator, who spoke at "Our Future in Peace." He urged President Kennedy's decision to launch a program to bring peace to the world. Phillips, who was in Havana, Cuba, where he was forced to take refuge in the Swiss Embassy to avoid arrest by Castro police, painted a grim picture of the situation in Cuba and warned that unless the United States and other Western Hemisphere nations take immediate action against Castro, that all of Latin America would be lost to Communism within the next three years.

Other highlights of the convention included addresses by President M. A. Wolcott, of the Louisiana Press Association, President Harold May, of the Alabama Press Association, Manager Harvey Walters, of the Georgia Press Association and Assistant Manager Ronnie Hicks, of the Louisiana Press Association. In addition to President Phillips, other 1961-62 MPA officers elected were: First Vice President Norman Mott, Jr., Yazoo City Herald; Vice President and Chairman, Daily Newspaper Section T. M. Hederman, Jr., Jackson Clarion-Ledger; Vice President and Chairman, Weekly Newspaper Section: George Keith, Carthage Carthagenian; Secretary W. W. McMillan, Kosciusko Star-Herald; Treasurer, T. M. "Operation Abolition"  
Now Available To  
Schools, Clubs, Etc.

A second copy of the film "Operation Abolition" has been secured by the Mississippi State Chamber of Commerce, and is now available for booking before clubs, schools, and civic groups. The new film is a 28-minute version of what happened during the communist-inspired riots at the hearing by the Housing Un-American Activities Committee in San Francisco last year. The hearings were broken up by the riots. Actions shots by newsworld photographers were put together to make the film "Operation Abolition."

The second copy was purchased by the State Chamber after demands for the first copy made it impossible to fill all requests. The first copy is a 40-minute version of the riots, and was donated to the State Chamber by James Hand, Jr., Rolling Fork, a former president of the organization.

Those desiring to book the film are asking to write the State Chamber of Commerce, P. O. Box 1849, Jackson giving at least two possible booking dates. There is no charge for the film.

**WHAT WONDERFUL THINGS ARE WITHIN HIS REACH!**  
Ever see a child's face when he reaches a light switch for the first time?  
He makes the lights go on, go off, with the flick of a questing finger. What an adventure - what an accomplishment - what a thrilling new power!  
He doesn't realize it fully, but that light switch is symbolic of much of his future. In his lifetime, electricity is likely to operate electric helpers we can't even imagine now - just as today's electric living is beyond the dreams of just a generation ago.  
And the wonder of it is that while the price of almost everything else has been going up, the average price per kilowatt-hour of electricity has been coming down. In fact, today your electric service is about the biggest value in your entire budget.

**TOP PERFORMANCE:**

Shell test crew reveals five ways to test your car for top performance—and how the 9 ingredients in today's Super Shell can help you get it

Shell experts test for knock by accelerating up steep grade. In another test, that "fifth wheel" in the back is lowered onto the road to measure mileage precisely.

**TOP PERFORMANCE:**

Shell test crew reveals five ways to test your car for top performance—and how the 9 ingredients in today's Super Shell can help you get it

**Test #1. Quick starting**  
Count the seconds it takes to start your car. The engine should "snap to" in about two to three seconds. A slow start drains your battery. And it means that your cylinders, causing performance troubles. If your engine is balky, try Super Shell. It's blended with a fully ingredient called Platformate.

**Test #2. Smooth running**  
Pay close attention to your engine in traffic. Does it vibrate roughly when you stop for a traffic light? Does it seem to "surge" as you pull away, then falter and fade? The problem may be the wrong blend of gasoline. In summer, for example, excessive heat can make winter grade gasoline bubble in the fuel line. Bubbles can interfere with the flow, causing rough running. Shell scientists don't let that happen with Super Shell. When hot weather threatens, they adjust Super Shell's 9 ingredients formula to give it the correct volatility for smooth summer driving.

**Test #3. Reserve power**  
On a sample, in high traffic, suddenly from about thirty miles an hour to the top of the hill, then all yourself.

**Test #4. Knock**  
Accelerate up a long, steep hill and listen carefully. If you hear a sound like marbles falling into an empty oil drum, you've got knock. It could cause engine trouble. Take no chances. Switch to Super Shell. Its formula includes no less than three ingredients to fight the various causes of knock.

**Test #5. Miles per gallon**  
Don't trust your fuel gauge when you measure miles per gallon. Take these three simple steps and be sure. 1. Start your test by filling your tank. Make sure the gas line comes up to the brim. Write down your mileage reading. 2. Drive in your normal manner for at least three tankfuls.

**Super Shell's 9 ingredients for top performance**  
Super Shell now contains 2 octane boosters, 1 mileage booster, 1 quick-start component, 1 fast-warm-up ingredient, 1 anti-knock agent, 1 gas preservative, 1 anti-rust ingredient, and one ingredient called Platformate. These nine ingredients all work together to give your car top performance.
